

# Safety Data Sheet Type S Mortar Mix

#### **Section 1** Identity

**Company Information** 

Tulsa/Sand Springs Division; PO Box 640 Sand Springs, OK 74063; (918) 584-2707; (918) 584-2708 Fax; (800) 259-8721 Toll Free

Handi Sak Division; 8300 NW 3rd Oklahoma City, OK 73127; (405) 789-3001; (405) 789-3008 Fax; (800) 299-5228 Toll Free

Common Name used on product label

Dry Mortar Mix

**Chemical Name** Does not apply

**Chemical Family** 

Does not apply

**Formula** 

Mixture of Masonry cement and sand

**Trade Name & Synonyms** 

Strongcrete

#### Section 2 **Hazardous Ingredients**

<b>Hazardous Component</b>	CAS #	% Typical	TLV Units	PEL Units
Sand (Quartz)	14808-60-7	*	0.1 mg/m <sup>3**</sup>	0.1 mg/m <sup>3**</sup>
Masonry Cement	65997-15-1	*	10 mg/m <sup>3</sup>	15 mg/m³ (total dust) 5 mg/m³**

\*Varies depending on product

\*\*Respirable fraction

Permissible Exposure Limit established by the Occupational Safety and Health Administration (OSHA) PEL:

Threshold Limit Value established by the American Conference of Governmental Industrial Hygienists (ACGIH) TLV:

#### Section 3 **Physical Data**

**Boiling Point** Does not apply

**Percent Volatile by Volume** 

**Percent Soluble in Water** 

Slight (0.1 - 1.0%)

**Appearance** Fine, gray powder mixed with sand None

Odor

Specific Gravity ( $H_2O = 1$ ) 2.6 – 2.7 Vapor Density (Air = 1)

Does not apply

**Reactivity in Water** Will not evolve flammable or

toxic gases

Vapor Pressure (mm=Hg) Does not apply **Evaporation Rate** 

Does not apply

(n = Butyl Acetate)

## **Hazardous Material Information System Identifier (HMIS)**

Health = 2\*Flammability = 0Reactivity = 1 Personal Protection = X

#### **Section 4** Fire and Explosion Data

Flash Point (Method used) Will not ignite **Extinguishing Media** Does not apply

**Unusual Fire and Explosion Hazards** None **Special Fire Fighting Procedures** None

Flammable Limits in Air (% by Volume) Lower: Does not apply Upper: Does not apply

**Auto Ignition Temperature** Does not apply

The information contained within was obtained from authoritative sources and is believed to be accurate for the manner in which the product is intended to be used. Other uses could result in ramifications which are not included within this document.

Issue Date November 1, 2015

## Section 5 Health Information

#### Signs and Symptoms of Exposure

1. Acute Overexposure

Irritation of skin, eyes, or nasal passages

When wet, contact with the skin or eyes may result in irritation and/or alkali burns

Chronic Overexposure

Cement dust can cause inflammation of the lining tissue of the interior of the nose and inflammation of the cornea

Hypersensitive individuals may develop allergic dermatitis

Excessive exposure by inhalation over an extended period of time may result in the development of pulmonary diseases including pneumoconiosis and silicosis

Over time, exposure could eventually lead to lung cancer

### Medical Condition generally aggravated by exposure

Respiratory disorders or diseases, dermatitis, or other skin disorders may be aggravated by exposure

Chemical/Component Listed as Carcinogen NTP Yes Yes No

#### Other exposure limits

None

### **Emergency and First Aid Procedures for indicated routes of entry**

Inhalation: Remove from exposure; if not breathing, give artificial respiration; if breathing is difficult, give oxygen; CONSULT PHYSICIAN

Eye Contact: Immediately flush eyes with large quantities of water for at least 15 minutes; CONSULT PHYSICIAN

Skin Contact: Immediately wash skin thoroughly with soap and water

## Section 6 Reactivity Data

**Stability** Stable

Incompatibility (Materials to avoid) Material is highly alkaline. Contact with acids will produce a violent, exothermic reaction

and may evolve toxic gases or Vapors, depending upon the acid involved.

**Hazardous Decomposition or Combustion Products** 

Hazardous Polymerization
Conditions to avoid

Does not apply Will not occur Does not apply

## Section 7 Spill or Leak Procedures

### Steps to be taken in case material is released or spilled

Clean up of spills may require personal protective equipment to prevent dust exposures and protect against alkali burns or irritation.

## **Waste Disposal Method**

If this material, as packaged, becomes a waste it does not meet the criteria for a hazardous waste as defined by the EPA under the authority of the Resource Conservation and Recovery Act (40CFR 261). Dispose of in accordance with Federal, State, and local regulations.

## **Section 8** Personal Protection Information

## **Respiratory Protection (Specify Type)**

NIOSH/MSHA approved for protection against nuisance dusts

**Protective Gloves** 

Rubber, PVC, Neoprene or other impervious material

Ventilation

General or local exhaust to maintain exposure below TLV/PEL

Eye Protection

Goggles

## Other Protective Clothing or Equipment

Rubber high top boots, barrier creams, arm sleeves and aprons may be used when necessary to prevent skin contact

## Section 9 Special Precautions

### Precautions to be taken in handling and storing

Should be stored in a manner to prevent contact with strong acids Contact with water should be avoided to preserve product

## **No Other Precautions**
